Brown Bag Lunch 2025

Citizen Science over lunch

Brown Bag Lunch 2025

Citizen Science over lunch

Once a month, we devote ourselves to exciting topics and projects relating to Citizen Science over lunch. In a short input of approx. 30 minutes, a project introduces itself, gives insights behind the scenes and shows what worked well in the project and where there were stumbling blocks. Afterwards, there will be enough time for questions, discussions and exchanges.

The events will take place from **12:15 - 13:15 mostly at the UZH Zentrum**. Delicious sandwiches will be provided. Registration is required for easier planning of the events.

Program 2025

22 May	Water in smartphones - experiences from the CrowdWater project Prof. Dr. Jan Seibert, Department of Geography, UZH Room: RAI J 031, Rämistrasse 74, 8001 Zurich
